- ✔ Express.js
- ✔ Back-end with Node.js
- ✔ Microsoft office

PROFESSIONAL SUMMARY

As a recent undergraduate with a passion for web development, I bring a solid foundation in React.js, Express.js, MongoDB, and Node.js. My expertise extends to building responsive and user-friendly front-end interfaces using Next.js and styling them with Tailwind CSS. Additionally, I have experience working on both the front-end and back-end, allowing me to create seamless and efficient web applications. With a commitment to continuous learning and a collaborative mindset, I am ready to contribute to innovative projects and grow as a web developer..

RELEVANT PROJECTS

Spotify Clone

Using plain HTML, CSS, and JavaScript, I created a functional Spotify Clone. This web application replicates key features from the popular music streaming service, allowing users to browse and play music, create playlists, and manage their existing lists. Host it on WebHostMost.com .

X.com Clone

Using Tailwind CSS and JavaScript, I created an X.com login page that allows users to input their information and stores it in local storage."
